## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3-24-03 has been entered.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-11, 19-21, 23, 25, and 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over See et al., U.S. Patent 5,674,762 in view of Sung et al., U.S. Patent 6,194,269 B1.

The rejection is maintained as stated in paper #4 mailed 11-8-01 for the reasons of record. Furthermore, with respect to the oxide layers being thermally oxidized, this limitation is a process limitation and is not given patentable weight in a product claim.

Claims 1-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schlais et al., U.S. Patent 5,153,143 in view of Shimizu et al., U.S. Patent 4,651,046.

The rejection is maintained as stated in paper #4 mailed 11-8-01 for the reasons of record. Furthermore, the motivation to combine the high voltage transistor of Shimizu et al. with the primary reference of Schlais et al. is proper because the high voltage transistor of Shimizu will provide a greater degree of protection for the memory device.

### ***Response to Arguments***

Applicant's arguments filed 3-24-03 have been fully considered but they are not persuasive. Applicant argues that the motivation to combine Schlais et al. and Shimizu is not proper. However, as discussed above, the motivation to combine the high voltage transistor of Shimizu et al. with the primary reference of Schlais et al. is proper because the high voltage transistor of Shimizu will provide a greater degree of protection for the memory device. Additionally, concerning the combination of See et al. with Sung et al., with respect to the oxide layers being thermally oxidized, this limitation is a process limitation and is not given patentable weight in a product claim.

### ***Allowable Subject Matter***

Claims 24, 26-27, and 29 are allowed.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard A. Booth whose telephone number is 308-3446. The examiner can normally be reached on Monday-Thursday from 7:30-6:00.
